Frost has been drunk the past few days, and when so is troublesome. He bantered Mehan for a sparring match to-day noon, which Frost wanted to work into a fight, but Mehan objected, and left Frost. Later on Frost went to where Mehan was ozing and again attacked him. In the melee he struck Mehan over the head with a hammer. Again the latter broke away, and Frost followed him, and upon Mehan refusing to treat to drinks, commenced again to attack Mehan. The latter, becoming exasperated, drew a pocket-knife and cut Frost's bowels open, permitting them to obtrude, and inflicted a serious wound in the throat. Frost walked two blocks to a drug store where his walked two blocks to a drug store, where his wounds were attended to, while Mehan immediately sur-rendered himself to Deputy Sheriff Lute Bahney. Irish Nationalists Decline to be Governed by the Vatican. LINCOLN (Neb.), April 29th .- On the uestion of the Papal condemnation of the plan of campaign, Patrick Egan, ex-President of the National League of America, said to-day that such a course on the part of Rome had been expected by those acquainted with the intrigue between the Tory Government and the Vatican. It had long been the ambition of the Papal advices to provide the course of the papal advices to provide the course of the papal advices to provide the pa visers to secure direct diplomatic relations with England and to have an accredited representative at the Court of St. James. It is also a pet scheme to have an endowed Catholic University in Ireland. It is understood that the Tory Government has promised to satisfy these desires on condition that the authority of the Papacy be directed toward what they are pleased to term the "pacification" of Ireland; in other words, the crippling of the National League. This attempt at spiritual inter-ference in matters partly temporal and political will, instead of suppressing, put new life and determination into the move-

ment. It will raise up unexpected difficulties for England, and bring no credit or advantage to Rome. The Irish Catholics recognize very clearly that churchmen are not the Church; and, while they will have no quarrel with the latter, they will stand no dictation from the former, and espe-cially when no question of faith or morals is involved, will resent such methods.

Secretary Sutton, of the League, said:

Washington, April 29th.-Senator Stanford's announcement that he is not a candidate for President came too late for his personal comfort. His mail for several days has contained an average of about sitions, as they say, to materially promote his ambition. Some of them wish to make a quiet canvass of the country in his behalf, and others want to fix delegates in the South to give him their votes. There are scores of disinterested patriots all over the Union who can deliver whole State elegations-if they are adequately reimbursed. They all want money. The Caliornia Senator has ceased answering letters of this description. He has thought of printing a circular bearing his name which shall contain these words: "I am not a candidate."

RIGHTS OF CITIZENS.

Judge Buckley's Decision in the Carson Maslin Case. Judge Buckley rendered his decision on Saturday morning in the case of Prentiss Maslin, charged with battery, in having ejected an Examiner correspondent from one of the Governor's private rooms at the Capitol. The trial of the case was long known certain public papers. He gave several illustrations, and added that this matter must always rest with the sound discretion of a public officer, as to what should be withheld. For any abuse of that discretion the laws are adequate. A public officer may have and keep an office in a public building which may be private in so far as privacy may be necessary for the conservation of public interests. Such officer may eject intruders on such privacy, using no more force than is necessary to effect the ejectment. Defendant had very decently and inoffensively asked Carson to leave the private office but the request was repeatedly scorned, whereupon Maslin was justified in removing him as he did. If the law contemplated otherwise the friend of a criminal whose case was under consideration might insist upon remaining in the Governor's private office, listen to all proceedings and then inform his friend, to the great injury of public justice. On the same principle any man might insist upon his right to remain in the office of a Chief of Police or Sheriff while the most important criminal case was being worked up, and riminal case was being worked up, and

What is probably the most venerable piece of furniture in existence has just

been deposited in the British museum. It is the throne of Queen Hatasu, who reigned in the Nile valley some 1,600 years before Christ, and twenty-nine years before Moses. This now dilapidated object seems to be of lignum vitæ, the carving of the legs being inlaid with gold and those of the back with silver.—Arkansaw Traveler. GENERAL NOTICES.

Advice to Mothers .- Mrs. Winslow's sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhea, whether arising from teething or other causes. LOCAL INTELLIGENCE.

THE OPENING GAME.

Yesterday was a gala day for ball playing and over a thousand people gathered at the even to one thoroughly familiar with Cali-Park to pass away the afternoon. About fornia, the fertility of its soil and the pictfield, halted and the Clevelands took the diamond for practice. In their prelimithat railroad communication is to be estable properties. naries they made a number of remarkable plays, which brought forth shouts from the audience. Their suit is one of the prettiest and neatest ever seen on a diamond. At a distance it had a faint tinge of blue, but on inspection proved to be white, with narrow blue stripes. The cap is of a sky-blue color and the stockings dark navy-blue altogether making a handsome combina-tion. The Altas suits are also very pret-ty, being of dark material trimmed in

Altas to the bat. One run was made by the Altas in the first inning, one in the second, two in the third and four in the eighth. Sayers played a good game and hit the ball pretty lively every time. McLaugh-lin and Barry did good work, but some-how the Clevelands hit the latter harder than was expected. Warren, Baker, Ahern and Bidwell accepted everything that came near. Fisher batted unusually well, but missed several flys, but the sun being in his face had no doubt something to do with his errors. Robertson was almost too sure " of himself and made three errors which could hardly be termed excusable. He made a three-bagger, however. For the Clevelands, Redman played an excellent game, and the way he hit the ball showed that he has a sharp eye for gauging it. The rest of the nine all did good work, and they work together in good shape. Two of their men—W. Stultz and Kitchen—are credited with threebaggers. They made their runs in the first, second, fifth, sixth and ninth innings. In addition, it may be said that a better lot of base-runners than those composing their nine would be hard to find. They spin around bases as though they were frightened, and to this fact they can well attribute a number of their runs.

The spectators were decidedly partial to the visitors, and every good play was duly noticed. At the last the game grew very exciting, and at the first half of the ninth nning the score stood 8 to 6 in favor of the Altas. The Clevelands then came to the bat, and the first three men succeeded in reaching the initial, making all the bases full. Barry then "braced up" and "fanned" the next two batters in a pretty manner. Kitchen then stepped up and "wafted" twice at the ball, but, alas! the next ball was brocked bard and reached the ball. pitched was knocked hard into right field, and three men came trotting over the plate and the game came to a close. Odd Fellows' Picnic. The Odd Fellows' picnic at Cothrin's Grove, on Saturday, was a decided success. The train of seventeen coaches and one baggage-car was drawn by two locomotives. started at 8:30 and reached the grounds at 10:40 o'clock. There are no finer grounds n the State for picnic purposes than this grove. It is a gently sloping hillside with numerous little gullies or ravines, free from brush or poison-oak, well grassed, and shaded with hundreds of large widespreading white oaks. No matter how arge the picnic there are plenty of trees for every picknicker. The First Artillery Band furnished music for dancing, which was the principal feature of the day. A number of shotgun sharps contested for the prizes at clay pigeon shouting. Several large footballs furnished no end of amuse ment. The High Scool nine and a nine from Bainbridge College contested for the prize offered by the society. The Bainridge nine won by a score of 12 to 6 Uncle John Douglas, the man who has sent up more balloons on this coast than any other, was on hand and sent up several paper bags of colored paper. CAPAY VALLET

THE WOODLAND, CAPAY AND CLEAR LAKE RAILROAD.

Development of the most Picturesque Valley in the State-The Earliest Fruit Section.

Capay valley, nestling among the hills on the western side of Yolo county, one of the most picturesque and fertile valleys on the Pacific coast, is about to be brought into prominence by the construction of a Lieutenant Sheehan.... railroad from the town of Madison, through the village of Capay, to the head of the valley. The roadbed was graded some ime ago, and, learning that track-laying was to commence this morning, a reporter of the RECORD-UNION visited the valley on Friday and Saturday and made a thorough inspection of its resources from one end to the other. The trip from Madison to Lawton's Hotel, at the head of the valley-twenty-six miles-was a revelation | F.

tablished, it will be but a short time before it is known far and wide. Capay valley is twenty-six miles in Total. ength, with an average width of three niles, its trend being northwest and southeast. It lies directly west of the beautiful and thriving city of Woodland, the county seat of Yolo county, but is best reached by taking the Vaca Valley and Clear Lake Railroad at Elmira to Madison. Cache creek, a very considerable stream of pure. elear water, runs the entire length of the narrow valley, affording abundant water

The freight traffic even of the first year will be large, as the whole of the rich valley is under cultivation in broad fields of growing grain, dotted here and there with immense liveoak trees ome of them six and seven feet in diam eter, present a beautiful picture. While the rainfall of the season has been light, the configuration of the valley has afforded protection against the scorching north yinds and the growing grain has not been blasted, as in many less-favored regions. Even the winter-sown wheat bids fair to yield a good crop.

THE PAST AND FUTURE. While wheat-raising has been mainly reied upon in the past, and owing to the fertility of the soil and warmth and salubrity of the climate has proved highly profitable, enough has been done in the way of fruitraising to demonstrate the capabilities the valley for the growth of all citrus, semitropical and temperate fruits. Throughout the valley may be seen thrifty orchards. containing orange, lemon, apricot, pear, fig, cherry, peach, almond and other trees. Vineyards, loaded with bunches of grapes already well formed, give evidence that there is no spot under the sun more congenial to the vine. In respect to early production, several residents of the valley here at least a week earlier than the same "there are no flies on him." Some days varieties did in the famous Vaca valley. If afterward he was seated on his porch enjoystage of vegetation all over the valley certainly tends to verify the statement, it gives the gravest expression possible, but a MY liberty. If the minority want liberty this section an immense advantage. It is the earliest fruit which brings the richest reward to the producer. With facilities for of flies had congregated: "Why, papa,

Town sites will be located as near to the center of the tracts as may be found convenient or judicious, and the purchasers of orchard or garden land in small tracts will be permitted to purchase. small tracts will be permitted to purchase not to exceed five lots in the townsite plats. In this way it is designed to establish poputhriving communities, whose growth and prosperity shall be based upon small holdings of very fertile and highly profitable lands. Ten acres of this fertile and lying under climatic conditions s favorable to orchard and garden culture may be made as profitable and responsive to intelligent industry as 160 or 320 acres o land devoted to the growth of cereals. The very early maturity of fruits and vegetables lready alluded to will secure to the cul vator the highest market price, while th oad to be constructed, being under th nanagement and control of the owners he land to be offered, will afford every facility for the shipment of fruits and vegeables, and in every respect promote the

A more perfect location for a town could scarely be selected. A short distance to the north and east, along the anks of Cache creek, stretches a grove of mmense live oaks, which break the mootony of the view towards the broad plains of the Sacramento valley. In the distance can be seen the Marysville Buttes, standing out from the plains and towering towards the skies, while still farther to the ast the snow-capped Sierras are plainly visible. To the west lies Capay, a little ways up the valley and between the hills and mountains which encircle it. The town site has been laid out square, the streets all running at right angles from a large public plaza in the center. Yolo avenue, the main thoroughfare, is sixty feet in width, and will be a splendid street. A LITTLE PREVIOUS. A London Journal Mistakes the Ameri-

can President for Congress. LONDON, April 29th .- The Economist says: "We expect to hear little of the American Treasury accumulations if the American Government maintains the present rate of purchasing bonds. There will be a diffi-culty, however, which is likely to increase as the supply of bonds diminishes. It is easy to skim the market of bonds loosely held, but it is difficult to reach those held for investment, which will only be surrendered on distinctly advantageous Commenting on the Presidential election

in America, the Economist says: siness in financial and railway schemes hang upon the result of the election, and even English business waits. Europe has ardly realized that the growth of America has advanced the President's positio to one of immense power and responsibil ity, so that it is now one of the first im-portance on the earth. American diplomacy is guided by the President's decision and affects all countries. The President is now resolving the fisheries question with England, the Samoan question with Germany, the emigration question with China. the struggle of nature to throw off the poisonous germs. A Word about Catarrh,

teacher blushes and marks James "perfect

'It is the musous membrane, that wonderful semi-fluid envelope surrounding the delicate issues of the air and food passages, that Catarrh makes its stronghold. Once established, it eats into the very vitals, and renders life but a long-drawn breath of misery and disease, dulling the sense of hearing, trammeling the powers of speech, destroying the faculty of smell, tain ing the breath, and killing the refined pleasure of taste. Insidiously, by creeping on from a simple cold in the head, it assau'ts the membrane-ous lining and envelops the bones, eating through the delicate coats and causing inflammation, sloughing and death. Nothing short of total eradication will secure health to the patient, and all alleviatives are simply procrastinated sufferings, leading to a fatal termination. SANFORD'S RADICAL CURE, by Inhalation and by Internal administration, has never failed; even when the disease has made frightful inroads on delicate constitutions, hearing, smell and taste have been recovered, and the disease thoroughly driven out."
